Die Cutting, Scoring, Perforating, Embossing & Stamping

We have eight machines in our pressroom to handle all our customers' needs in this area: Our **Bobst 102** press handles **28" x 40"** sheets and our two **Heidelberg Cylinders** take **25" x 35"** and **18" x 22 1/2"** sheets for die cut, crease, and perforating. The **Heidelberg Platen 10" x 15"** handles small die cut jobs efficiently, while the **Heidelberg Platen GTP** will die cut, emboss or stamp on sheets up to **13" x 18"**. Most stamping and embossing jobs such as pocket folders fit well on our **Kluge 14" x 22"** as it will feed oversize sheets up to **26 1/4"**. For very thick or oversized sheets, we have two hand-fed presses, a **Thomson 14" x 22"** and a **Franklin Stamping Machine**.

Folding

Our folding department has three continuous feed **MBO Folders**, one **23" x 36"** and two **26" x 40"** with **Double Gate Fold** and **Knife Fold** Attachments. Our **In-Line System** uses various attachments to provide folding, perforating, scoring, gumming, and side seam gluing of mailers all in-line. A **Vijuk Mini Folder** handles small pieces with small folds. We now offer **fugitive glue** (aka "boogie glue") for folding and for tip-ons. Our **Multi-Feeder** attachment enables us to automatically feed magnets, CD's or other pieces to be fugitive glued in-line with any of our folders or other equipment.

Stitching & Trimming

With both the **Müller-Martini Bravo-T Stitcher/Trimmer** and the **Müller-Martini Minuteman Stitcher Trimmer**, our capabilities include: 6 pockets and 3 hand feed stations; **Cover Feeder**, **Loop-Stitching Heads**, **4th and 5th Knives** for 2up books, **Hard Fold** and **Soft Fold**. Finished size is 3" x 4 1/16" min. to 11 3/4" x 18 7/8" max. For thicker saddle stitch jobs (up to 3/4") our **Bostitch Wire Stitcher** can do the job. We also use this machine for side stitching along with our two **Interlake Multiple Head Wire Stitchers**.

Counting & Padding

The **Vacuomatic Automatic Counting Machine** counts and tabs press sheets. Our **Brackett Circular Padding Machine** uses hot melt adhesive and can finish pads up to 24" wide and 1" thick. We can also complete pads with crash on the head.

Trimming

We have one **36" Polar Cutter** and two **45" Polar Cutters**.

Film Laminating

Our **D&K 3215 Laminating Machine** can accommodate a sheet size of 11" x 17" min to 30" x 40" max. with a sheet thickness of 80# min. to 18pt. max.

Eyeletting

Stimpson Eyeletting Machines use 1/4" eyelets.

Handwork

Hand folding, inserting, applying magnetic tape or foam tape, constructing odd pieces, paper banding, special packing and much more.

Shrink Wrapping

Beseler Shrink Box 14" x 17", a **Shanklin Shrink Box 20" x 30"**. An **API Automatic Sealer**, and a **Thin Pack Roller system** for thin packages.

Perforating & Scoring

Our **Perf-A-Matic Rotary** will perf, score and slit. The **Moll Per-N-Crease** is for use with our in-line folding & gumming system.

Easels

Stock Easels available
From 4" Single Wing to 21" Double Wing and everything in between! Grey or white-lined chip, with or without double-faced tape.

Gluing & Gumming

The **Moll Pocket Folder Gluer** streamlines the construction of standard folders of various sizes, while the **Moll Marathon Regal with Versa-Fold** provides the ability to efficiently produce any sort of odd pocket folders, sleeves, or flat boxes. Our **Moll Pre-Mailer Remoistening Gum Machine** works with our in-line system to fold, gum, perf, score and glue mailers. Our two **New Jersey Gluing Machine** pattern gluers take up to a 20" x 30" sheet. The two **Potdevin Marginal Gluers** which can apply glue up to 4" in from the edge for applying one piece to another.

Mounting

The **Tunkers Laminating Machine** mounts press sheets to board. Board thickness can be from **.012"** (thick cover stock) to **.250"** (foam board) and any thickness in between (**chipboard** or **corrugated** board). This machine will take a sheet size from **8 1/2" x 11"** to **43" x 60"**.

Tape Applying

We have three **Stik-It Taping Machines** for **spot or strip Double-Faced Tape** with a sheet width maximum of 44" and minimum sheet size of 3" x 4". For flat or back wrap-around **tape stripping**, our two **Bracket Stripping Machines** do the job.

Drilling, Punching, Round Cornering

We have a single head **Super Speed Drill** and a **Lawson Multi-Spindle Drill** for standard holes. Our **Portland Punch** can accommodate **Round, Universal or Kalamazoo** punches. Our **Southworth Corner Cutter** takes a 4" pile, and is capable of cutting a radius of **1/8"**, **1/4"**, **3/8"** or **1/2"**.
